EXCHANGE

**Over 200 university
partners worldwide**

GOGLOBAL

The experience

Great Experience! I got to experience different cultures and learn so much about myself and my degree. I also got to travel around the world and that was awesome!

It was a priceless experience that challenged me both academically and personally.

I think going on exchange was the best decision of my life, and I have made some of the best memories and friends while on exchange.

Exchange was an amazing experience. I took this chance to validate how independent I was in terms of living alone. I would do this all over again any day.
