

UBC Sauder Financial Modelling & Interview Prep Program (FMIPP)

Program Details

The FMIPP is a self-paced online training program designed to equip BCom students with comprehensive skills in financial modelling and interview preparation. Sign up to take the next step in your finance journey!

Courses to accelerate your finance career

By registering, you'll gain lifetime access to these 14 courses from [Wall Street Oasis](#):

Accounting Foundations

60+ video lessons

Explore how the Income Statement, Balance Sheet, and Statement of Cash Flows are interconnected with real company financials. Gain foundational accounting skills essential for finance careers.

Financial Statement Modelling

60+ video lessons

Learning how to build 3-statement models is a foundational finance skill. Learn how to link the 3 statements in Excel, prep your Balance Sheet, and complete this course to prepare for our more advanced financial modelling courses.

Excel Modelling

120+ video lessons

Mastering Excel is essential for careers involving data analysis. This foundational course includes exercises and a capstone project to ensure you become proficient in Excel and can confidently tackle more advanced modelling courses.

Valuation Modelling

170+ video lessons

Explore Nike's valuation using trading comparables, precedent transactions, and sum-of-the-parts methodologies. You'll learn how to spread comps to run your own valuation models.

PowerPoint for Finance

60+ video lessons

Learn advanced PowerPoint techniques and shortcuts to become efficient at creating slide decks. This course includes practical exercises, allowing you to build decks from scratch and get 2-3x faster.

DCF Modelling

75+ video lessons

Dive into Nike's financials and master discounted cash flow modelling. Learn to run a DCF, understand its pros and cons, and speak confidently about this common valuation method.

LBO Modelling

120+ video lessons

This course assumes Nike is taken private by private equity mega funds to teach you how to build a detailed leveraged buyout model with critical sensitivity analysis. Learn about the 2017 tax reform, purchase accounting in the context of an LBO, dividend recapitalizations, and integrating a roll-up strategy.

Real Estate Modelling

110+ video lessons

The first section of this course covers modelling skills and real estate knowledge expected by top Real Estate Private Equity Funds; the second dives into building complex real estate models from scratch across different asset types and investment strategies.

M&A Modelling

120+ video lessons

In this course, we'll assume Nike is acquiring LuLu and explore merger models. You'll learn to build your M&A models, run accretion dilution analysis, and contribute value to your deal teams right from training.

Venture Capital

160+ video lessons

Explore the history and current structure of VC funds and how term sheets are built, including economics, controls, and rights and provisions. Learn about due diligence basics and advanced concepts like ARR Builds and Cohort Analysis.
