

## Commerce Course Equivalency Chart

The following chart lists Commerce courses approved as equivalent to courses offered at our partner schools. Other equivalents may be available. This list grows as more equivalents are determined.

The offering and/or enrolment in courses on the chart is not guaranteed. This chart is a "guideline" of what may be offered. Check the partner website to determine which courses are current and offered in each semester.

At the time these courses were evaluated, the credit value was equivalent to the UBC course. Ensure that the credit value has not changed and the course is equivalent to 3 UBC credits, or at least 2.5 UBC credits.

Note that due to Canadian-specific content or uniqueness of Sauder course, it is difficult to find equivalents for particular courses including: COMM 355, COMM 363, COMM 390, COMM 393, COMM 394, COMM 395, COMM 396.

Courses evaluated over 5 years ago must be re-evaluated for equivalency. Outdated courses are kept on the chart for reference. Courses on the chart that were evaluated less than 5 years ago should also be found in the Go Global database of courses.

In general, business courses taken that are not equivalent to any of our courses are assigned as COMM elective credit.

Non-business courses are assigned as upper or lower-level non-commerce electives, depending on the type and level of the courses taken. Check the Go Global course database for evaluated courses.

Chart last updated March 13, 2025
