Generative Artificial Intelligence: Declaration Form

This form is used to help determine how Generative Artificial Intelligence (GenAI) aided you when completing your assignment. As noted in your syllabus, GenAI is permitted for some assessments and required for some assessments, so it is important for you to follow the instructions from your instructor. If you used any GenAI tools (including chatbots like ChatGPT, Gemini, Copilot, as well as integrated tools like Notion, Grammarly, etc.) when creating your work, please indicate this use below.

Author's Note

I understand that I am solely responsible for the academic work that I submit. All GenAI tools used in the preparation of this assignment are declared below, and all original authors have been cited as per assignment and/or instructor guidelines.

Student Name		*Date*	

Declarations

	I did not use any GenAI tools (including Grammarly, Notion, translation tools, etc.). *You did not need to complete the rest of the form if you did not use any GenAI tools.*

If you did use any tools, please indicate those you used when completing your work, and complete the additional reflection. For each part of the process, please add a check mark beside the task and note the tools (and version) used. Your decision to use tools alone will not impact your grade on this assessment.

	Generating ideas, brainstorming, ideation using…	
	Finding sources and supporting evidence using…	
	Organizing ideas using…	
	Editing, proofreading, grammar help using…	
	Drafting (first drafts, revisions, final draft help) using…	
	Citation creation using….	
	Formatting (including slide creation) using…	
	Other (ex. translation tools, any other use not noted above).
